

## WALL MAX INSTRUCTIONS

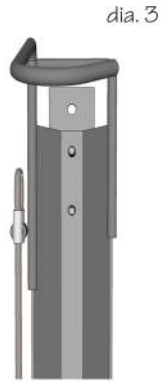

dia. 1

**Step One**  
Locate the Mounting Plate, shown in Diagram 1. Use the Lag Bolt to attach the Mounting Plate to the wall at the desired height (see Mounting Suggestions on Page 2),  
*\*concrete anchors not provided*

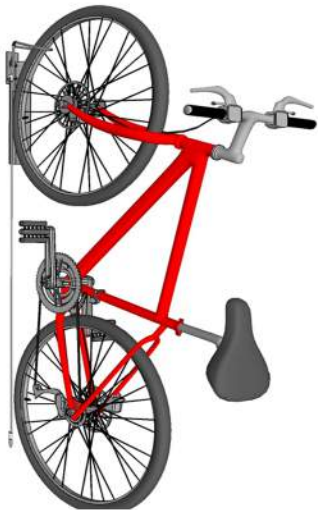

dia. 2

**Step Two**  
Locate the Wall Max, pictured in Diagram 2 with the optional Security Cable. Place the two holes on the Wall Max over the threaded stems on the Mounting Plate, as shown in Diagram 3. Secure using (2) 5/16" Washers and (2) 5/16" Stopnuts.

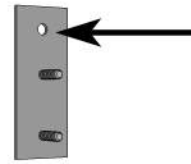

dia. 3

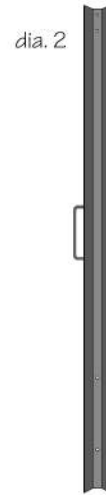

Repeat Steps One and Two until all of the Wall Maxes are hung, using the guide on Page 2.

## WALL MAX WITH GUARD INSTRUCTIONS

dia. 1

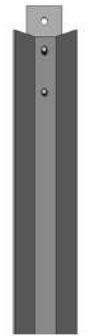

**Step One**  
Locate the Mounting Plate, shown in Diagram 1. Use the Lag Bolt to attach the Mounting Plate to the wall at the desired height (see Mounting Suggestions on Page 2),  
*\*concrete anchors not provided*

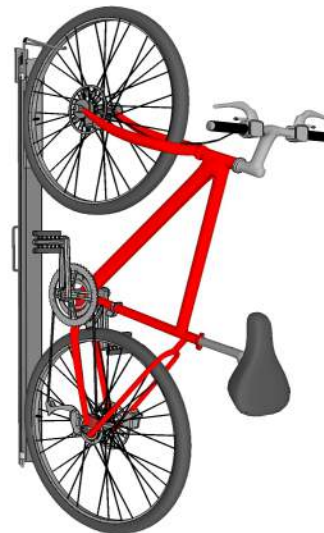

dia. 2

**Step Two**  
Locate the Wall Guard, shown in Diagram 2. Place the two holes on the Wall Guard over the Mounting Plate, as shown in Diagram 3.

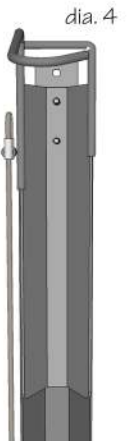

Then, place the Wall Max on top of the Wall Guard, as shown in Diagram 4. Secure using (2) 5/16" Washers and (2) 5/16" Stopnuts.

dia. 3

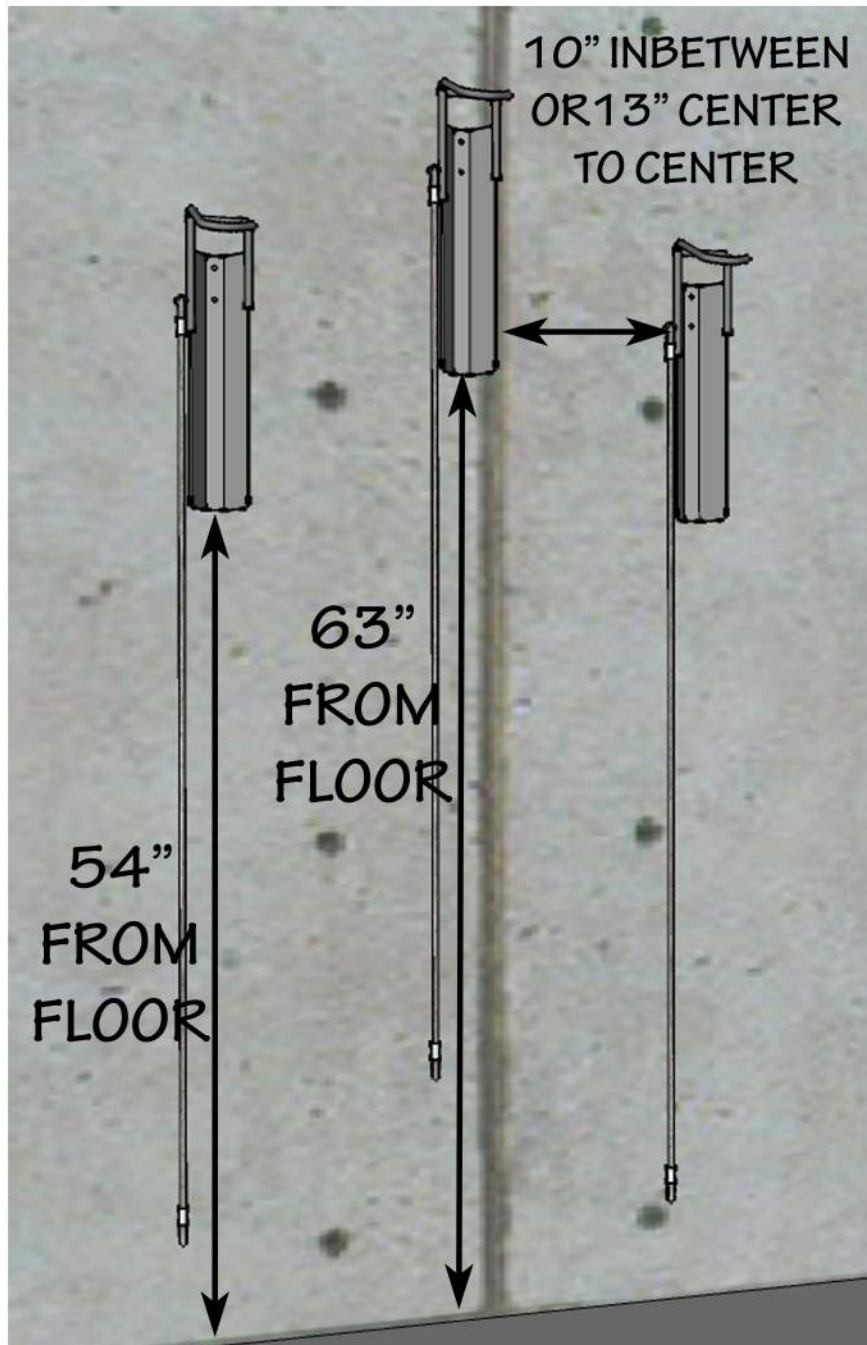

Repeat Steps One and Two until all of the Wall Maxes are hung, using the guide on Page 2.
